

PRELIMINARY CONGRESS PROGRAMME /16

MARCH 2024

***MAIN TOPICS: ADVERSE DRUG EVENTS- NITROSOGENESIS
OF SKIN CANCER, DRUG INDUCED MELANOMA/
KERATINOCYTE CANCER, SKIN CANCER SURGERY***

(31 original presentations)

Sofia

6th National Congress of the
BULGARIAN SOCIETY FOR DERMATOLOGIC SURGERY

Bulgarian Society for
Dermatologic Surgery

Saturday 16.03.2024

*6th National Congress of the
BULGARIAN SOCIETY FOR DERMATOLOGIC
SURGERY*

**16 MARCH 2024
SOFIA, BULGARIA
GRAND HOTEL MILLENNIUM
SHAKESPEARE HALL**

**6th NATIONAL CONGRESS
OF THE BULGARIAN SOCIETY
FOR DERMATOLOGIC SURGERY**

www.bulsds.com

Morning session (I) (08:00-10:00)

***Melanoma Surgery /Personalised (One Step) Melanoma Surgery/
Nitrosogenesis, Nitrosamines and melanoma***

Presentations upload 10/15 min. before the session has started!

Chairs:

1. Melanocytic tumours and their genetic background. 20 min.
2. Kissing atypical genital nevus of the *labia majora* in a young Bulgarian patient: What's the best approach ? 8 min.
3. Acrolentiginous melanoma: Case series of subungual tumours with surgery. 10 min.
4. Nevus associated Scalp melanoma: SPECT/CT combined with planar (conventional)_lymphoscintigraphy as best diagnostic approach: first case from MVR Hospital. 10 min.
5. Nevoid melanoma of the shoulder: SPECT-CT and dynamic lymphoscintigraphy as key stone diagnostic procedures for the most appropriate lymph node mapping in the framework of two stage surgical procedure: second case from MVR hospital. 8 min.
6. Applicability of one step melanoma surgery (OSMS) in patients with FAMMM Syndrome: guidelines related comparative analyses to the current recommendations of the AJCC/EJC. 8 min.

7. Advanced melanoma: unforgettable case related clinical pictures from the dermatological ambulance. 6 min.
8. Dysplastic nevi and melanoma development during pregnancy: successful dermatosurgical approach in 3 selected Bulgarian patients. 8 min.
9. Multiple dysplastic nevi development under Valsartan/ Amlodipine: Nitrosogenesis as possible explanation for the development of melanoma precursor lesions ? 8 min.
10. Candesartan (or/ and Nitrosamine) induced Neighbouring melanomas and dysplastic nevus: first description in the Medical literature. 10 min

Coffee break 10:00-10:30 coffee break

6th NATIONAL CONGRESS
OF THE BULGARIAN
SOCIETY FOR
DERMATOLOGIC SURGERY

***Afternoon session (I) (Nitrosamines and Nonmelanoma skin cancer/ Acne
Inversa/ Pharmacooncology) 14:00- 16:00***

Presentations upload 10/15 min before the session has started!

Chairs:

1. Albinism in Africa: prevention and treatment of skin cancer. 20 min.
2. Planning surgery in skin cancer on the face. 20 min.
3. Verrucous carcinoma and verrucous carcinoma –like lesions: problematic issues in surgical management. 8 min.
4. Nitrosogenesis and skin cancer: Simultaneously occurrence of nonmelanoma skin cancer and cutaneous melanoma after potentially Nitrosamines/ NDSRIs contaminated antihypertensives (Bisoprolol/Furosemide): successful dermatosurgical approach. 10 min.
5. Nitrosogenesis of keratinocyte cancer: Giant BCC of the scalp after Telmisartan/ amlodipine: Rotation advancement flap as promising dermatosurgical approach. 10 min.
6. Adverse drug events: Basal cell carcinoma development after use of Metformin- potential role of Nitrosamines as enhancing factors: First report in the World literature. 6 min.

7. Adverse drug events: High risk BCC of the nose after Telmisartan/Hydrochlorothiazide in combination with Bisoprolol/Amlodipine: potential role of Nitrosamine contamination as key triggering factor for keratinocyte cancer development. 6 min.
8. SCC of the nose and metatypical BCC of the shoulder developing during treatment with Valsartan/Chlortalidone: Nitrosamine contamination as Main skin cancer triggering factor? 6 min.
9. Giant Pilomatricoma in an adult mimicking malignancy. 8 min.
10. Ramipril/ Metoprolol induced BCC and dysplastic nevus: Polycontamination with Nitrosamines in the context of polymorbidity and multimedication as potential skin cancer trigger. 8 min.
11. Severe Hidradenitis suppurativa (Hurley III) with axillary, inguinal, gluteal and perianal involvement: undermining surgery and surgical deroofting as adequate approach. 8 min.

Coffee break 15:30-16:30

Afternoon session (II)(NMSC/ Lymphomas/Varia) 16:30-18:30

Presentations upload 10/15 min before the session has started!

Chairs:

1. Paraneoplastic pemphigus. 20 min.
2. (Post) Covid 19 panniculitis. 8 min.
3. Paraneoplastic localized Scleroderma (Morphea) in patient with Capecitabine induced pulmofibrosis and metastatic Colon carcinoma. 6 min.
4. Mucocutaneous infections in an immunocompromised patient. 8 min.
5. Bulgarian patient with Nevus flammeus associated with dysplastic nevi and lichen sclerosus: First report in the medical literature about a rare clinical observation. 7 min.
6. Autoimmune/ Autoinflammatory Syndrome Induced by Adjuvants (ASIA)/ Silicon implants: Rare observation in young Bulgarian lady. 8 min.
7. Solitary cutaneous epithelioid angiomatous nodule (CEAN) associated with unilateral capillary malformation (Nevus flammeus): Rare observation in a Bulgarian patient. 6 min.
8. De novo manifestation of Mycosis fungoides shortly after COVID-19. 4 min.

9. Adverse drug events: Lichen planus of the glans penis after intake of Nebivolol: First reported case in the world literature. 5 min.
10. Chronic recurrent urticaria in patient with recurrent herpes labialis: complete remission after administration with Aciclovir and antihistamines. 6 min.

18:45 CONGRESS AWARDS:

Young dermatologists with best contribution AWARD:

Foreign author BEST lecture AWARD:

20:00 Official Gala Dinner TIME!
