

PRELIMINARY CONGRESS PROGRAMME /15 MARCH 2025
MAIN TOPICS: ADVERSE DRUG EVENTS/ ONCO-PHARMACOGENESIS /
DRUG INDUCED NITROSOGENESIS OF SKIN CANCER, PHOTO-
NITROSOCARCINOGENESIS , SKIN CANCER SURGERY
(26 original presentations)

www.bulsds.com

*7th National Congress of the
BULGARIAN SOCIETY FOR DERMATOLOGIC SURGERY*

Bulgarian Society for
Dermatologic Surgery

Founded 2018

www.bulsds.com

Saturday 15.03.2025

*7th National Congress of the
BULGARIAN SOCIETY FOR DERMATOLOGIC SURGERY*

**15 MARCH 2025
SOFIA, BULGARIA
GRAND HOTEL MILLENNIUM
SHAKESPEARE HALL**

**7th NATIONAL CONGRESS
OF THE BULGARIAN SOCIETY
FOR DERMATOLOGIC SURGERY**

www.bulsds.com

Morning session (I) (08:00-10:30)

*Melanoma Surgery / Melanoma Surgery/ Nitrosamines and
melanoma*

Presentations upload 10/15 min. before the session has started!

Chairs: ...

1. Spitz nevi-histopathological and molecular genetic characteristics.15 min.
2. Thin melanoma arising in nevus spilus: dermatosurgical approach with favourable outcome. 8 min.
3. Controversies and paradoxes in melanoma surgery: Consolidating two surgical sessions into one and sparing the sentinel lymph node: a possible guarantee for recurrence free survival: Analysis based on 2 new cases. 8 min.
4. " The Dangerous Brassiere" and the Nevus- associated polypoid melanoma: Connection seems plausible? 8 min.
5. (N-Nitroso) Propafenone induced advanced nodular melanoma- First reported case in the world literature: The inextricable Links between the Drug Related Nitrosogenesis, Photocarcinogenesis and Pharmaco-Oncogenesis. 8 min.
6. Metastatic nodular melanoma developing on Nevus spilus during intake of beta Blockers (Bisoprolol/Nebivolol) and ACE inhibitors (Perindopril): Links to Drug related Nitrosogenesis and Pharmaco-oncogenesis. 20 min.
7. Nitrosogenesis of cutaneous melanoma: Simultaneously development of primary cutaneous thick melanoma of the breast, thin melanoma and dysplastic mole of the back during parallel intake of Bisoprolol, Amlodipine and Valsartan/HCT: Nitrosamine polycontamination in the multimedication as important skin cancer Trigger. 20 min.
8. Drug related Nitrosogenesis, Photocarcinogenesis and Oncopharmacogenesis of nodular melanoma: A case related analysis concerning the Polycontamination of the Polymedication with Valsartan/ Hydrochlorothiazide and Bisoprolol. 10 min.

Coffee break 10:00-12:00 coffee break

11:00- 12:30

International Dermatology session

WWW.BULSDS.COM

THE BULGARIAN SOCIETY FOR DERMATOLOGIC SURGERY

12:30- 13:30 lunch for invited guests

15 MARCH 2025
SOFIA, BULGARIA
GRAND HOTEL MILLENNIUM
SHAKESPEARE HALL

7th NATIONAL CONGRESS
OF THE BULGARIAN
SOCIETY FOR
DERMATOLOGIC SURGERY

*Afternoon session (I) (Wound management/ Nitrosogenesis/
Oncopharmacogenesis and Nonmelanoma skin cancer/ Pharmaco-
oncology) 13:30- 16:30*

Presentations upload 10/15 min before the session has started!

Chairs:

1. Split Thickness Mesh graft in wound management. 12 min.
2. Can' t you see? Its a Cupid Bows BCC! 8 min.
3. Contemporary negative pressure wound therapy. 12 min.
4. Nitrosogenesis of Skin (Human) cancer: The Hidden Truth of a Neverending Story: Nitrosamine contamination in Olmesartan , Valsartan and Hydrochlorothiazide as main risk factor for the development of keratinocyte cancer. 8 min.
5. A Novel No Foil-to-Skin Contact Technique for Vacuum assisted Wound closure in patients with sensitive skin. 12 min.
6. Nitrosogenesis lessons from Dermatologists-Nitrosamines/ NDSRIs contamination of the polymedication in polymorbid patients as the most powerful skin cancer inductor: Double Hatchet flap for SCC of the scalp occurring during treatment with Valsartan, Hydrochlorothiazide and lercanidipine. 12 min.
7. Morpheaform BCC of Ala Nasi: A successful dermatosurgical approach by transposition flap of the adjacent area. Contamination of Venlafaxine, Bisoprolol and Olanzapine with Nitrosamines/ NDSRIs: The most likely cause for skin cancer development and progression. 15 min.

8. Keratinocyte cancer, dysplastic nevi and cutaneous melanoma development after Intake of potentially Nitrosamine / NDSRIs contaminated drugs: New Data. Important Links to Photo (Nitroso) Carcinogenesis and Pharmac-Oncogenesis. 8 min.
9. BCCs development after intake of potentially Nitrosamine contaminated Antihypertensives/ Antiarrhythmics: Links to exogenously Triggered Nitrosogenesis/ Carcinogenesis and Oncopharmacogenesis. 7 min.
10. Ramipril and Metoprolol induced BCC and dysplastic nevus: Nitrosamine contamination as most potential trigger for the development of melanoma and Nonmelanoma skin cancer. 8 min.
11. Metatypical BCC of the Ear: partial amputation of the auricle as adequate dermatosurgical approach. 7 min.

Coffee break 16:00-17:00

***Afternoon session (II)(Immunologically mediated diseases/
Lymphomas/Varia) 17:00-18:45***

Presentations upload 10/15 min before the session has started!

Chairs:

1. Wolves in sheep skin & sheep skin like wolves. 30 min.
2. Bulgarian patient with Atrophoderma of Pasini et Pierini: description of a case and a short update. 10 min.
3. Psoriasis and bullous pemphigoid developing simultaneously during systemic administration with Bisoprolol and Losartan. 7 min.
4. Netherton syndrome in a Bulgarian patient: presentation of a case and an update of therapeutic options. 10 min.
5. Erosive pustular dermatosis of the scalp: a pathogenetic mystery and therapeutic challenge. 7 min.
6. Giant cell epulis: rare observation in a Bulgarian patient. 8 min.
7. Bilateral Gynecomastia associated with accessory mammary gland: sporadic clinical finding in a patient with Acne vulgaris. 8 min.

18:45 CONGRESS AWARDS:

"Young dermatologist" with best contribution AWARD 1:

Foreign author best lecture AWARD:

20:00 Official Gala Dinner TIME!
